CyberCube — Catastrophe Modeling Vendor Profile

Published November 21, 2026 · Risk Coverage Hub (riskcoveragehub.com) · Informational reference only; zero vendor rankings.

Direct answer: CyberCube is an independent San Francisco-based cyber catastrophe modeling and insurance analytics vendor. Widely used across the cyber re/insurance ecosystem, its flagship Portfolio Manager models systemic cyber aggregation and single-point-of-failure events alongside Account Manager for underwriting and Broking Manager for placement.

What CyberCube Models and Sells

CyberCube licenses a multi-product SaaS suite dedicated specifically to the insurance value chain: Portfolio Manager (probabilistic cyber catastrophe aggregation modeling), Account Manager (single-risk underwriting), Broking Manager (broker placement and limit adequacy), SPoF Intelligence (mapping shared cloud/OS/vendor dependencies), Exposure Manager, CyberConnect APIs, and the Cyber Aggregation Event Response Service (CAERS).

Attribute	Primary-Source Verified Record
Candidate # / Gate	#31 — PUBLISH (Option B)
Ownership	Independent privately held cyber risk analytics company (backed by Spectrum Equity and institutional investors; San Francisco HQ with London, NY, and Chicago offices).
Headquarters	San Francisco, CA
Named Platforms	Portfolio Manager, Account Manager, Broking Manager, SPoF Intelligence, CyberConnect, Exposure Manager, and CAERS

Primary Buyers	Cyber insurers, reinsurers, MGAs, insurance and reinsurance brokers, and ILS investors
Official URL	https://www.cybcube.com/

Peril Scope and Buyer Fit

Modeling addresses systemic cyber catastrophes—including cloud provider outages, widespread software vulnerabilities, mass ransomware campaigns, and supply-chain contagion—translating technical exposure into financial loss distributions. Primary buyers are cyber carriers, MGAs, treaty reinsurers, retail/reinsurance brokers, and ILS funds.

Frequently Asked Questions
