Guidewire HazardHub — Catastrophe Modeling Vendor Profile

Published November 21, 2026 · Risk Coverage Hub (riskcoveragehub.com) · Informational reference only; zero vendor rankings.

PARENT OWNERSHIP BADGE (Guidewire Software, Inc.): A Guidewire Software division — acquired by Guidewire Software, Inc. (NYSE: GWRE) in August 2021 and operated within Guidewire Analytics.

Direct answer: Guidewire HazardHub is the property hazard and peril-scoring division of San Mateo, California-based Guidewire Software, Inc. (NYSE: GWRE), acquired in August 2021. Through a single sub-two-second API call, HazardHub delivers 50+ property-level peril scores across fire, weather, water, earth, and manmade hazards.

What Guidewire HazardHub Models and Sells

Operating inside Guidewire Analytics, HazardHub supplies automated property pre-fill data, replacement-cost indicators, municipal fire-protection grades, permit history, and 50+ peril risk scores via REST API or native InsuranceSuite / InsuranceNow integrations. Guidewire emphasizes underwriting loss-ratio and expense-ratio gains from instant risk selection at quote.
