ImageCat — Catastrophe Modeling Vendor Profile

Published November 21, 2026 · Risk Coverage Hub (riskcoveragehub.com) · Informational reference only; zero vendor rankings.

Direct answer: ImageCat, Inc. is an independent Long Beach, California catastrophe risk technology company that builds the Inhance® exposure enhancement platform, the SeismiCat earthquake loss model, FACFinder facultative mapping software, and a satellite-backed post-event disaster catalog.

What ImageCat Models and Sells

ImageCat licenses software and geospatial datasets focused on exposure data hygiene and specialized hazard modeling. Inhance® audits property exposure files via heuristic reporting and connects carriers to third-party comparison layers in the Inhance Data Market; SeismiCat applies Robust Simulation analytics to seismic uncertainty; FACFinder supports facultative placement; and its Cat Response team delivers rapid satellite damage assessments.

Attribute	Primary-Source Verified Record
Candidate # / Gate	#7 — PUBLISH (Option B)
Ownership	Independent privately held risk management technology and catastrophe modeling company (ImageCat, Inc.).
Headquarters	Long Beach, CA
Named Platforms	Inhance® exposure analytics and Data Market, SeismiCat seismic loss model, FACFinder facultative mapping tool, and Post-Event Catalog
