Kovrr — Catastrophe Modeling Vendor Profile

Published November 21, 2026 · Risk Coverage Hub (riskcoveragehub.com) · Informational reference only; zero vendor rankings.

Direct answer: Kovrr is an independent Tel Aviv- and New York-based cyber risk quantification and AI governance company with deep roots in insurance catastrophe modeling. Alongside its enterprise CRQ and AI Governance suites, Kovrr provides insurers and reinsurers with probabilistic cyber accumulation and scenario modeling (including CRIMZON™ Cyber Risk Impact Zones).

What Kovrr Models and Sells

Kovrr operates dual enterprise and insurance analytics lines: its Cyber Risk Quantification (CRQ) and AI Security & Governance (AIRQ) platforms model top-down and bottom-up financial loss scenarios for corporate CISOs and boards, while its Insurance Data Insights and Scenario Intelligence capabilities help P&C carriers and reinsurers stress-test cyber portfolios against systemic aggregation and silent-cyber exposure.

Attribute	Primary-Source Verified Record
Candidate # / Gate	#32 — PUBLISH (Option B)
Ownership	Independent privately held cyber risk quantification, catastrophe modeling, and AI governance software company.
